## Why giant accounts?

The joys of being your own boss. Flexible tax and financial planning. Tapping into the right software and expertise to support your role as company director. And the very best of best advice.

## ltd co, way to go...

A limited company might be your most tax-efficient option if you're earning more than £15 per hour and contracting for the longer term. You may be eligible to claim business expenses and, if you pass the IR35 test, you can choose to pay yourself dividends alongside your salary which reduces your tax burden.

The whole point of contracting is freedom. So you don't want to be tied up with admin! You get access to a Qualified Personal Accountant and support team plus snappy software to help you manage your finances, raise invoices and enter expenses on the go 24:7.

## What we believe in

We've been managing contract and temporary workers since 1992. We are founders and partners of the professional associations your industry needs. We pioneered the dedicated technology and customer care that others imitate. We anticipate changes in legislation and employment trends. We win awards. All this means that you get the very best. Personal attention. Technology. Expertise. Security. Trust. Speed. Accuracy. And the power of niceness! The better we do our job, the more time and money you have. The happier you are.

## It's really easy to join giant accounts

**It's really easy to join giant accounts even if you're switching from another accountant, or umbrella employment.**

We're here to guide you on whether a limited company is the best option for you. We'll give you the advice you need to get started and professional recommendations for your specific situation. This can happen in as little as 24 hours. You can lean on our specialist support team any time. We'll help with all the practicalities of incorporation, registering with HMRC and ongoing admin. Our simple software puts you in control. As for our brilliant people – your Qualified Personal Accountant and support team – ditto.
